

PD-018 Thermostat for Vivarium Temperature Control

µTemp (micro-temp) is a compact yet sophisticated on/off thermostat for non-light emitting heat sources such as heat mats with a power rating of up to 130 Watts.

- ◆ Control range of 19°C to 35°C
- ◆ 230Vac 130W rating
- ◆ Low hysteresis, typically 1°C
- ◆ Fitted with UK mains plug and socket, each 1 Metre long
- ◆ Temperature sensor cable 1.5 Metres
- ◆ LED indication of heating cycle
- ◆ Recessed control to avoid accidental adjustment
- ◆ Dial calibrated in both Centigrade and Farenheit
- ◆ Dimensions 76mm x 50mm x 25mm

All of our products are designed, made and tested in Britain

They conform to all relevant European standards

We only use high quality components

Plain, recyclable packaging contributes to a reduced environmental impact
